Fairview—N. Mayrath, J. D. Brown.

The following resolutions were adopted unanimously:

The Republicans in delegate convention for the county of Ford assembled resolve as follows:

First.—We cordially endorse the statesmanlike and American administration of President McKinley, as the redemption of pre-election promises and the fulfillment of pre-election predictions. And as the pride of all right thinking men it will be known as a epoch in the country's history, honored while the Republic is revered.

Second.—We recognize in the Honorable Chester I. Long a capable and faithful representative, whose ability has placed him among the leaders of our national council, whose recognition on the ways and means committee was a just tribute to his sterling worth, and a compliment to the Republicans of Kansas. And to the end that the Seventh district maintain this prestige in the Congress of the United States, acquired through the industry and devotion of our representative, the delegation from this county to the congressional convention is hereby instructed to cast its unanimous vote for his renomination.

Third.—We hereby cheerfully approve our entire state administration for the clean, able and patriotic manner of conducting public affairs without a single scandal. And reposing special confidence in the integrity, experience and independence of the Hon. W. E. Stanley, who

has signally disregarded and risen above partisan favoritism in the discharge of the responsible duties of governor of our commonwealth, we cordially commend him to the further suffrage of the people of Kansas for a second term in the same high trust, and instruct our delegates to the state convention accordingly.

Fourth.—Senator Lucien Baker is deserving the grateful recognition of the people of Kansas for his unswerving fidelity to the trust imposed on him; and the Republicans of Ford county acknowledge their confidence in him, and take this occasion to commend his course in the Senate of the United States.

Fifth.—We recognize our debt of gratitude to the brave and fearless defenders of our country, and favor just and liberal pensions to our soldiers and sailors, and prompt and considerate action on the part of the departments in their behalf.

Sixth.—Grave questions of public concern are apparent in the new conditions growing out of trusts, monopolies and the proper treatment of our island territories. And we turn confidently to the Republican party for their proper solution as the only great political party which has in the past shown an aptitude to solve such problems satisfactorily to the American people.

Delegates to State Convention.—M. W. Sutton; J. H. Leidigh; John H. Churchill and Dr. Crumline. Upon motion State delegates were elected by acclamation. And the delegates were instructed to vote for M. A. Low as National Committeeman for Kansas.

Alternate Delegates to State Convention.—J. D. Bush; Capt. D. L. Sweeney; Sam Barthomore; and John B. Paige.

Delegates chosen to Congressional Convention.—John H. Small; Frank Manda; John L. Ridenour and W. J. Fitzgerald.

Alternates.—W. R. Gordon; J. A. Arment; P. F. Sughrue and G. M. Sheldon.

## The Lecture on Dickens.

S. S. Ashbaugh, of Wichita, delivered the third lecture in the course, before the Philomath club, at the Christian church, Friday night. There was a good attendance. Mrs. Whitworth, president of the club, introduced the lecturer in a few well chosen words. Mr. Ashbaugh lectured on Dickens' Works. The lecturer is a man of good appearance and of more than ordinary ability. He presented his subject in an interesting and entertaining manner. Dickens was a remarkable man. He rose from obscurity, and his early life gave him an opportunity of knowing the peculiar character of the people he wrote about. His books were read by all civilized people, and his stories stirred the minds of the English people particularly, and opened the way for inaugurating prison reforms and cultivating a feeling of love among the people. Mr. Ashbaugh is evidently familiar with his subject, and as presented, it made a favorable impression on his audience. Dickens stories, made from real life, were a blessing to mankind. The past in the light of the future ennobles the mind, and this was well exemplified in Dickens' characters. The comments on the lecture were favorable. People who are not familiar with the works of Dickens could hardly imagine that apparently so dry a subject could be woven into such interesting matter, as that presented by Mr. Ashbaugh. But what may seem the inconsequential things of life are those things which are the most productive of good. We imagine that many readers of Dickens' stories scarcely realized the amount of good these stories did in the world. What was only an entertaining novel to the casual reader, who desired only to be pleased, was a subject which marked an important event in English history. It had its influence among all English speaking people.

Mr. Ashbaugh's style was cultured and refined. The lecture was written in the best English. It was a fitting subject perfectly fitting the occasion. The lecturer put particular emphasis in many parts of his lecture. His clear enunciation rendered the lecture audible. Perfect pronunciation was well marked and up-to-date. There were fine flashes of wit and rhetoric and interspersed, made striking points, which thrilled the audience.

As a literary effort the lecture was grand, and it made a good impression upon all who heard it. It was instructive, logical and pleasing. Mr. Ashbaugh paid the Philomath Club a fine compliment. The club is truly a magnificent edifice built where the cross roads of the Santa Fe trail and the cattle drive diverge no more.

We have saved many doctor bills since we began using Chamberlain's Cough Remedy in our home. We keep a bottle open all the time and whenever any of my family or myself begin to use the Cough Remedy, and as a result we never have to send away for a doctor and incur a large doctor bill, for Chamberlain's Cough Remedy never fails to cure. It is certainly a medicine of great merit and worth.—D. S. MEARLE, General Merchant and Farmer, Mattie, Bedford county, Pa. For sale by W. S. AMOS.

## RAILROAD NEWS.

—The wife of Brakeman Kendrick has returned from Denver, where she went for her health.

—The Santa Fe road is arranging to run a special train to the Messiah, at Landsburg on April 13. A rate of one fare has been made for the trip.

—The Santa Fe Railway company will put in an electric plant at this station some time during the year. The yards, hotel, and company property will be lighted. The plant will be the same as the one at Newton.

—The railroads have succeeded in getting Mr. Peacock, of the Carnegie Steel company, to a meeting he wished to attend, dragging him across the continent in a few hours. It cost him \$4,000. It must have been important. And besides, it gave Mr. Peacock a chance to splurge.

—The wife of Fireman Frank Whitney cured herself of consumption a few days ago after having been given up by the doctor and her friends, by coughing up a piece of one of her teeth which had escaped from the dentist's forceps and taken refuge in her left lung. As the lady was under the influence of ether on the occasion she was, of course, unconscious to the dangerous accident to her health.

—TO ALL SANTA FE RAILROAD EMPLOYEES.—S. E. Bussar, Superintendent of Libraries and Reading rooms, has decided upon the evening of May 1st as the time for joining with all other employees to give themselves, their families and friends a literary, musical and social entertainment. It is expected that Rev. Charles M. Sheldon will deliver the opening address. You are requested to meet at the Reading Room at 3 o'clock P. M. Saturday, April 7, to confer on arrangements. J. C. BAIRD, Librarian.

—THE GREAT STRUT.—A. R. Peacock, vice president of the Carnegie Steel company, who made the record breaking trip across the continent, arrived at Pittsburgh Friday night on the regular Pittsburgh, Ft. Wayne & Chicago train from Chicago. He gave up the special train at Chicago and consequently made slower time between that city and Pittsburgh but his entire journey from Los Angeles to Pittsburgh occupied but seventy-two hours and thirty minutes.

—The Rock Island has done another creditable thing. A few weeks ago, J. F. Kerr, the station agent at West Plains, out in Meade county, died after a lingering illness, of consumption, leaving a widow and several little children in a destitute condition. Now the company has appointed her agent at that place, and as she has virtually been running the station during her husband's illness and is a telegraph operator besides, will have no trouble getting along. The selection of Mrs. Kerr is a creditable one to the Rock Island management.—Preston Plaindealer.

## Lingering La Grippe Cough.

G. Vacher, 157 Osgood St., Chicago, says: "My wife had a very severe case of la grippe, and it left her with a very bad cough. She tried a bottle of Foley's Honey and Tar and it gave immediate relief. A 50-cent bottle cured her cough entirely." Price 25c. and 50c. W. S. AMOS.

## The City Election.

The election Tuesday for certain officers passed off pleasantly. There was no opposition except for the offices of Marshal and Street Commissioner. The following candidates were elected:

Clerk—Samuel Gallagher.  
Attorney—Vine DePui.  
Marshal—W. B. Rhodes.  
Assessor—R. S. Robinson.  
Street Commissioner—John Madden.  
First Ward—Councilman—Fred Neuman, Member School Board—J. M. Burson.

Second Ward—Councilman—W. F. Pettillon, School Board—D. P. Raglin.

Third Ward—Councilman—Dr. O. H. Simpson, School Board—J. M. Kirkpatrick.

Fourth Ward—Councilman—A. P. Coons, School Board—W. J. Fitzgerald. Rhodes has 204 majority over T. J. Tate and Madden 60 majority over A. Falkner.

## TURNER TORTURED TO DEATH.

Mexicans Show No Respect for the American Flag.

As details of the death of Ed Turner, his imprisonment and usual way in which wrecks occur or are brought about in Mexico the more outrageous the matter appears to Americans and especially Turner's friends. Carl Clark of Emporia an old time friend of Engineer Charles Weddie of Wellington, says the Journal, has just returned from Old Mexico, where he had been railroaded. He tells a terrible tale of the way railroad men are treated by the Mexican alcaldes. He knows about fifteen railroaders who have been confined from four to twelve months in jail and can get no trial, the answer from day to day being "Manana," which means tomorrow. If a Mexican is run over and killed by a train the engineer and conductor are both held responsible for the killing and are thrown into a filthy vermin-infested, unventilated pen, with a lot of lousy Mexicans, where they may be kept for months without trial. The peons get drunk and lie down on the track, apparently thinking that the train will turn out of the road and go around them like a wagon. Mexican brakemen are employed, and if a conductor, in the effort to get one of them to work should strike him with his hand he would go to jail—but the conductor is allowed to kick them as much as he pleases. Mr. Clark had the misfortune a few weeks ago to be the engineer when a runaway car killed a couple of peons who were stealing a ride, and make his escape by hiding for three days in the locker of a caboose, in which a conductor coming north smuggled him through. There is good money for conductors and engineers down there, but the high-handed methods of the Mexican local government keeps Americans out of the country. Mr. Clark says that they do not interfere with Englishmen or Germans, and that many Americans are protecting themselves by appealing to the English flag. He says the Mexicans have no respect for the American flag and boast that if Texas were taken out of the union they could whip the whole country. Appeals to the American consul do no good. Mr. Clark knew the circumstances of the death of Engineer Turner, formerly of Wichita, who died in prison after nine months' confinement in a Mexican jail without trial. Turner died from exposure to the fifth and vermin of one of the vilest holes that ever surrounded a prisoner.

It is very hard to stand idly by and see our dear ones suffer while awaiting the arrival of the doctor. An Albany (N. Y.) dairyman called at a drug store there for a doctor to come and see his child, then very sick with croup. Not finding the doctor in, he left word for him to come at once on his return. He also bought a bottle of Chamberlain's Cough Remedy, which he hoped would give some relief until the doctor should arrive. In a few hours he returned, saying the doctor need not come, as the child was much better. The druggist, Mr. Otto Scholz, says the family has since recommended Chamberlain's Cough Remedy to their neighbors and friends until he has a constant demand for it from that part of the country. ## The Cigarette is Going.

The cigarette habit so interfered with the work of employees in the weather service at Washington that Chief Willis L. Moore issued an order prohibiting employees from smoking cigarettes during office hours. This order extends to all in the service throughout the country. Concerning the order Chief Moore said:

"The order was issued after careful consideration and a thorough investigation of the evils resulting from cigarette smoking. It will stand. In this service we are compelled to maintain a very strict discipline in order to secure satisfactory service. Some of our men, who are regarded as the most thorough and competent, doing every detail of their work with the utmost promptness and accuracy, gradually became careless and lax. I sent inspectors to investigate, and in a number of cases it was found directly attributable to the use of cigarettes. I am not prudish, nor do I wish to assume any authority whatever over any of the privileges which the employees of the service should have but as a public servant, I feel that it is my duty to correct any evil that may exist, even if in attempting to make this claim I am overstepping my authority. I can state most emphatically that the order will stand, and that it applies to the entire force of the bureau throughout the entire service. Cigarette smoking must cease. Cigars and pipes are not barred."

The time will soon come in all offices where a large number of clerks are employed that not only cigarettes, but also pipes and cigars will be prohibited during office hours. This order will come because smoking interferes with work and also because it becomes unpleasant to many employees who do not smoke.

## EAST END NOTES.

From the Spearville News, Mar. 30.

—Gus Roggeness was up the first of the week figuring on lumber for a new house. Mr. R. has recently settled on a piece of government land near Windthorst, and says he is permanently located.

—Quite a lot of nursery stock is being put out by our people this spring. T. M. Barger is making a delivery for Stark Bros., and C. H. Smith, of Kinsley, is delivering for the Pawnee Rock nursery this week.

—According to the report of the Secretary of the State Horticultural Society, Ford county contains more fruit trees than any other west of Pratt. Ford county contains 36,180 bearing trees and 45,052 not bearing.

—A short drive through the Settlement Tuesday gave us an opportunity to see some fine farms. Wheat is in splendid condition, and all agree that the prospects and condition of the country is far in advance of former times.

—J. R. Baird closed the deal the first of the week whereby Henry and J. C. Knoeber became the owners of the north half and the south west quarter of section 33, just south of town. J. M. Leidigh bought the south-east quarter of the same section.

G. F. Weyand made a business trip to Ness county the first of the week. He reports wheat looking finer than for years. He also says that quite a bit of land is changing hands, and that prices are better than heretofore. It is only a matter of a short time till all this land will be occupied.

A man named E. Presson of Pressonville, Kas., wrote a letter the other day, saying the opinion of everybody in his town who has used Foley's Honey and Tar is, that it is the very best medicine for la grippe, colds, cough, etc. W. S. AMOS.

The question, whether or not the cattlemen of this county can graze lands of other parties without paying for the same is coming forward for answer. Many of the lands have come into possession of parties who live in the east, through purchase of the mortgage or otherwise, and these parties have tired of paying taxes on these lands and allowing them to be grazed without compensation, and the cattlemen insist on grazing them and claim they can't pay lease on lands and make anything. Now on this point I want to say, that if the cattlemen in most instances, would run fewer cattle on less land, pay for the lands grazed, grow some feed and have fewer losses they would in the end probably be a little tired from honest toil but would have as much money, and the county would be as well off.—Clark County Clipper.

People are coming into this county so rapidly of late that it is a considerable job to keep track of them. Every day new faces appear on the streets. Some are looking to the location of a house, others looking for a ranch. We have both in Clark County and we are glad to have them located with us regardless of political affiliation or previous conditions of servitude so to speak.—Clark County Clipper.

The wheat sown here last fall is looking fine, and the prospect for a crop was never more promising at this time of year. Many of the farmers are going back to wheat and will sow large quantities. They will plant more corn also, owing to the slow sale of feed last fall. But the large quantity of feed raised up and down our valley that so many contemplated would have to be summered over is nearly exhausted and every spear will be used before there is grass sufficient to carry cattle along.—Clark County Clipper.
